

SERVICES CONNECTOR FOR CONTENTSTACK

Administration Guide

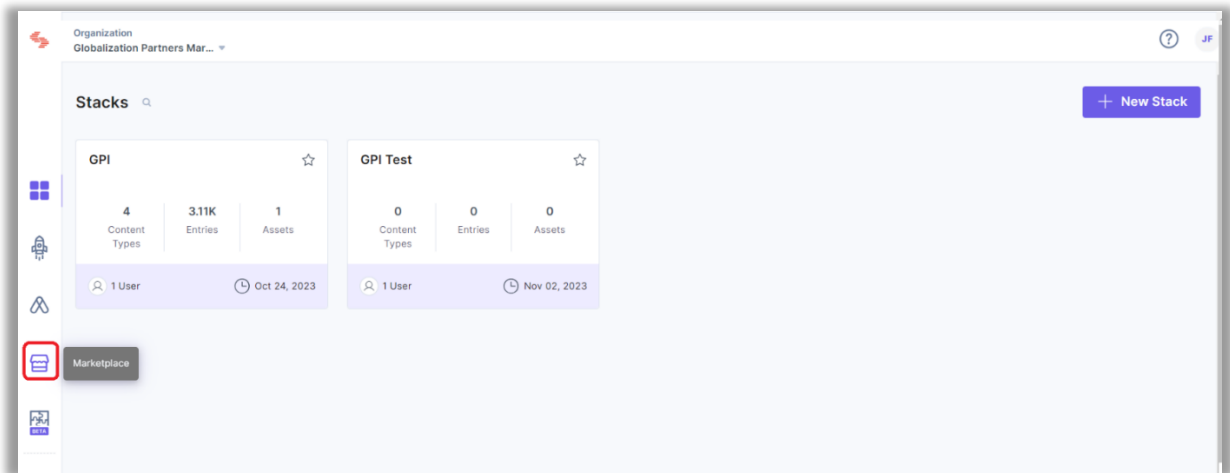

Introduction

The following sections describe how to install and configure the GPI Translation Services Connector for **Contentstack**.

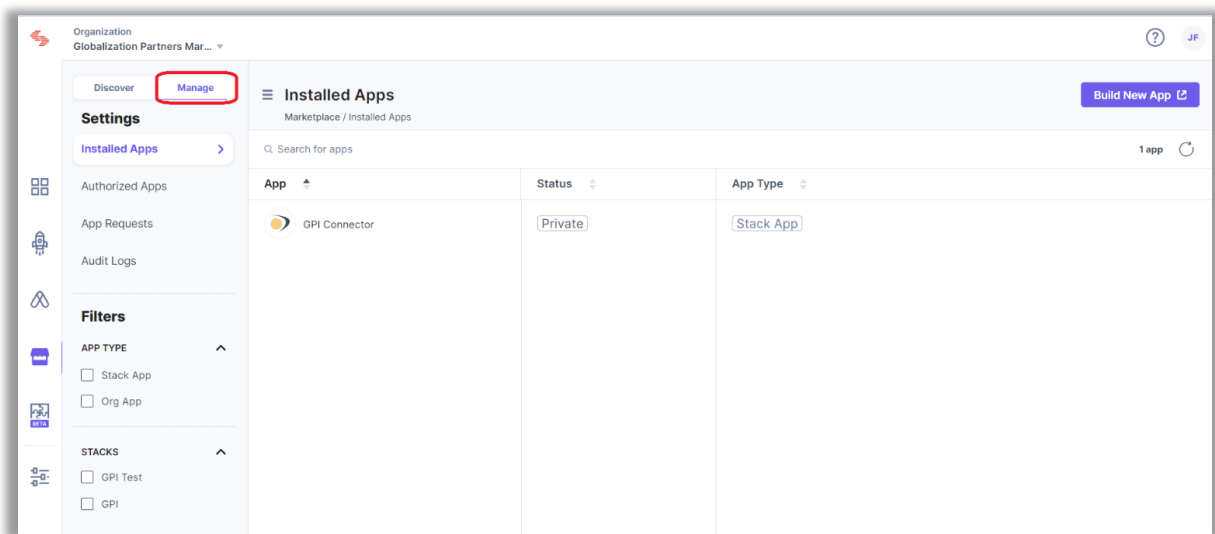

Installation

After you install the connector from the Marketplace, there are some configuration steps you need to run to get the connector to work.

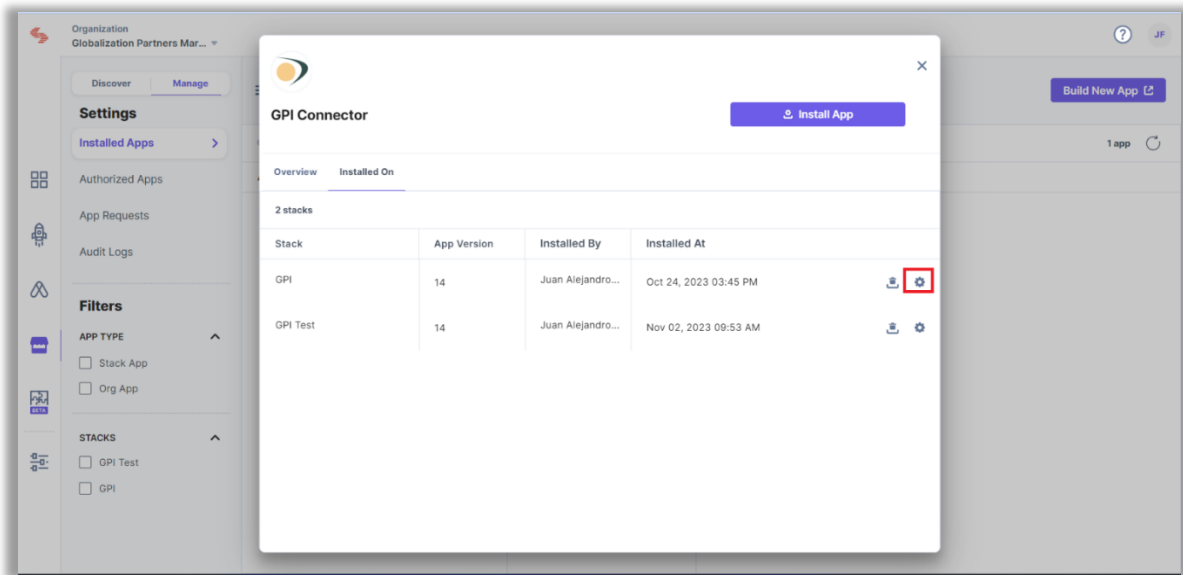

1. Log in to **Contentstack**.
2. Click on the Marketplace button to open visualize the already installed apps.

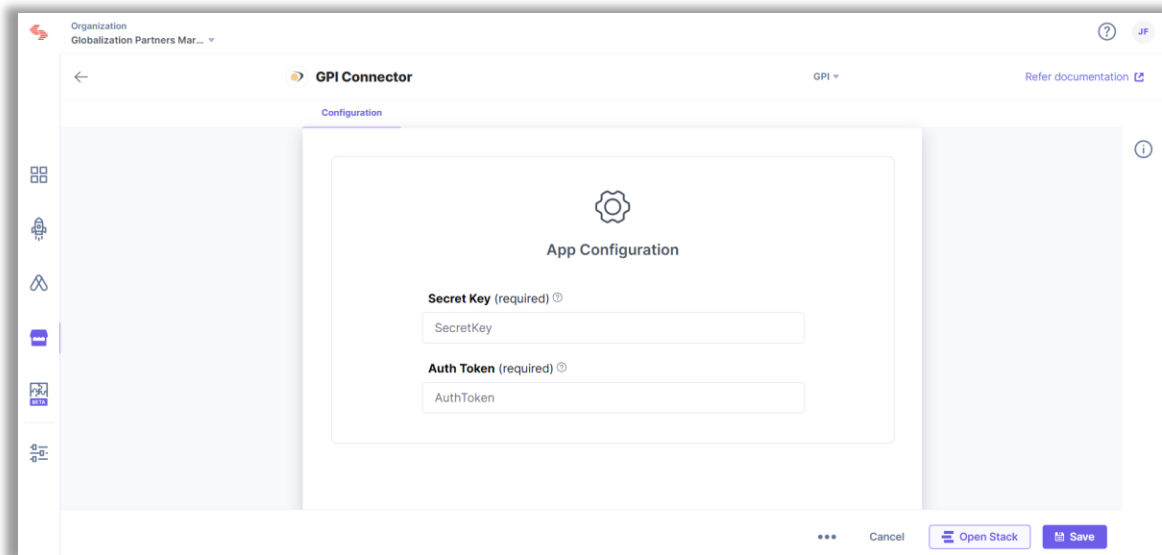

3. Click in the **Manage** button.

4. Click on **GPI Connector**. This will open a pop-up showing the stack where you installed connector.
5. Click on the engine button.

- After clicking in the gear button, it will show the **App Configuration** page. In this screen, you have to enter both the **Secret Key** and the Auth Token provided by GPI. If you don't have these values, please send an email to itsupport@globalizationpartners.com with the subject "GPI Connector for Contentstack".

- Click on the **Save** button to confirm the changes.
- If the credentials are correct, then you should be able to start using the GPI Connector.
